REMARKS OF THE COUNSELOR:

1. Students will benefit from sexual harassment/ cyber-crime workshop.
2. Many girls are being forced into marriage or forced to give up education due to their orthodox families. These girls will benefit if the college could support them in securing their education.

ANNEXURE 9: BEST PRACTICES:

Best Practice No. 1:

1. Title: Providing Services of a Career Counsellor free of cost, on the campus.

2. Goal: The Students graduating from the College have a variety of career opportunities. The College through the Career Counsellor assists students in taking informed career decisions by providing them with relevant information on the career opportunities. One-to-one counselling sessions are conducted for assessing the students' interests, ambitions and aptitude and accordingly advice them on the suitable career options.

3. Challenges:

- As the service is provided free of cost to students, the College Management is bearing the cost. This adds to the financial burden on the College Management.
- Despite giving wide publicity, students are reluctant to avail of the services. It has been a challenge to convince students that the counsellor's advice can help them in making appropriate career choices. Many of them think that they know what is best for them and do not acknowledge the fact that there could be career options that they are not aware of, which in the long run could be suitable to them.

4. The Practice:

- The College has signed a MoU with Prafula, a professional Counselling Centre whereby a professional Career Counsellor visits the College once in a fortnight.
- A separate room is allotted to the Counsellor on the campus.
- Anonymity regarding the identity of the students who avail of this facility is strictly maintained
- The service is made available free of cost to the students of the College and the College Management bears the cost.
- Notices are sent to classrooms to communicate the day and time during which the Counsellor will be available in the College for consultation before every visit of the Counsellor
- Notice is also sent on the official WhatsApp group of students of every class
- The students are urged to give feedback about the Counsellor to understand the effectiveness of the service rendered.

- The Career Counsellor is asked to submit a detailed report regarding the number of students who availed the service, nature of queries put forth by the students etc. and any recommendations that the Counsellor would like to make to the College.

Constraints/limitations:

- Due to financial constraints, though this service is demanded by the alumni, it is not possible to extend this service to them.

5. Evidence of Success

The feedback obtained from those who availed of the Counselling service as well as the report presented to the College by the counsellor shows that

- The Counselling service is well appreciated by the students
- Approximately 135 students availed of this facility.
- Many students wanted information about offbeat career options, part time career options etc. and were satisfied with the information provided.
- The Career Counsellor was also present at the time of admission to the first year of several programmes and consulted the counsellor to make a judicious choice of programme.

6. Problems Encountered and Resources Required

Problems encountered with respect to:

- Financial resources are limited.
- Providing a room for the purpose that ensures privacy.

Best Practice No. 2:

- 1. Title: Giving opportunities to two post graduate students to work as a teaching fellow.**
- 2. Goal:** The College offers two Post Graduate programmes namely (M.Com in Advanced Accountancy and M.Com in Business Management). Some of the students express interest in pursuing teaching as a career. Considering that they are eligible to appear for the NET/SLET examination in the second year of their post graduation programme, the College has developed the system of appointing selected students as Teaching fellows to give them a hands-on experience in Teaching.

3. Challenges:

- It is difficult to find a candidate who can undertake the responsibilities effectively. It has also been observed that teaching is not a much sought out career option among students.
- As they are paid Stipend, it adds to the financial burden on the College Management

4. The Practice:

- Students of M.Com. Part II are informed about this initiative and applications are invited from the interested students.
- Candidates are asked to deliver a demonstration lecture to check their communication skills, mastery over the topic, class control, effectiveness in classroom etc.
- The selected candidate is given an annual stipend
- The candidate is assigned three lectures per week in a particular class for a particular course.
- The candidate is then mentored by the subject teacher regarding effective delivery of the content, class control etc.
- Informal feedback from students is obtained about the candidate and conveyed to him/her.

Constraints/limitations:

- Some difficulty is faced while scheduling lectures. It is not appropriate to involve the teaching fellows in examination related work as they are also students of the College

5. Evidence of Success:

- The confidence level of the students, planning and preparing for the lectures , delivery style etc. have shown remarkable improvement.
- The candidate, with enhanced knowledge of basics of teaching, is better prepared for competitive exams like NET/SLET etc. Two students who had worked as teaching fellows in the College have qualified in NET/SLET and are working as full-time faculty members in Colleges.
- The students of the class in which the teaching fellows teach appreciate this kind of peer learning and enthusiastically participate in classroom activities

6. Problems Encountered and Resources Required:

- Some candidates back out after being selected due to personal reasons or to focus on their studies
- The stipend offered per annum is not lucrative.
