## E-Governance Policy

### E-governance Policy

E-governance aims at harnessing the potential of Information, Communication and Technology (ICT) for strengthening higher education and creation of an integrated data management system (see the chart below). Such a system would help the College to provide accurate and timely information to its stakeholders.

Keeping this into consideration, the E-governance policy of the College has the following objectives:

- 1) To create an integrated data management system.
- 2) To facilitate storage, retrieval and dissemination of data and information.
- 3) To provide seamless flow of information to its stakeholders.
