

INDUSTRIAL REPORT FOR SY/TY SELF FINANCE STUDENTS

<u>DATE</u>	<u>ACTIVITY</u>	<u>ORGANISED BY</u>	<u>BENEFICIARIES</u>	<u>PARTICIPANTS</u>	<u>IMPACT FACTOR</u>
24/01/19	Industrial visit to Silvassa	Self Finance Department	SY/TY students	43 students	The students got an overview about the industries

An Industrial Visit to Silvassa was organized by Tolani College of commerce on 24th January 2019. The visit covered two industries Viz. – **Sudhir Gensets Limited** and **Bombay Rayons Fashion Limited**.

There were a total of 43 students from the S.Y and T.Y classes from the BMS, BAF and BFM departments. The college reporting time was 6:30 am and the expedition commenced at 7:10 am. Before the departure, the students were briefed about the two industries and were also given instructions by Asst. Prof. Mubeen, followed by the roll call and head count for attendance, taken by Asst. Prof. Shalini Clayton.

The first halt was at the Vitthal Kamath restaurant, for breakfast, at 9 am. We departed from Vitthal Kamath Restaurant at 9.50 am and reached our first destination– **Sudhir Gensets Limited** at 12:30 pm. Upon reaching Sudhir Gensets limited, the students were divided into two groups with a teacher accompanying each group. Each group was headed by one industry personnel to give insights about the functioning of the machinery in the industry. The industry personnel explained how each and every process is undertaken for producing a generator. He also stated how Sudhir Gensets outsources some of the machinery parts of the generator from Cummins India, and Sudhir Gensets only assembles the parts and sells it under its name - Sudhir. It specializes in Diesel Generators and can produce upto 50 generators in a day.

The visit to Sudhir Gensets ltd was accomplished at 2:30 pm and the next break was taken at Hotel Heritage, for lunch. Post lunch, the journey resumed to the next destination – Bombay Rayons Fashion Limited.

The visit at Bombay Rayons began at around 4:00 pm. Bombay Rayons is a textile company, the visit was about acquainting how the fabric is manufactured out of thread and how different machinery works together to weave batches of thread to make desired quality and style of fabric. Bombay Rayons, specializes

in linen material, pure cotton and polyester. The students were given an insight on the wrapping concept which is basically how the thread is wrapped in bunches of 100 meter. The second stage was how a single thread is manually put in to heated frames and heated wires. Students were shown 15 to 20 looms in which fabrics were manufactured.

Post the visit at Bombay Rayon Fashions Limited at 4:30 pm, the next halt was at the Tea stall, at 5:15 pm, for refreshments. After refreshments, the team headed back to Mumbai, reached Mumbai city at around 7:30 pm. The heavy traffic jam delayed the journey and the team returned to college at 9:00 pm. The visit was concluded with attendance of the students, taken by Asst. Prof. Reshma Rajput.
