6.	Water Dispenser Machine	<p>Water Dispenser facilitates easy supply of drinking water. Clean and hygienic water is very important for human health. We know that to keep our body healthy and fit, our body should contain more than 50% water. Therefore, it is very important that we should drink purified water. Water dispenser plays a very important role in this regard.</p> <p>Water dispenser plays a vital role at the workplace, restaurants, hospitals and public places for storing clean drinking water. The bottled water dispenser has many of the same components as a point of use dispenser, as they contain many similarities and are built the same way. There are simple bottled water dispensers that do not have cooling or heating options.</p> <p>Most water dispensers typically use the same simple concept: deliver water from a source</p>
