2.5.3 - IT integration and reforms in the examination procedures and processes including Continuous Internal Assessment (CIA) have brought in considerable improvement in the Examination Management System (EMS) of the Institution

In the A.Y. 2022-2023, All the examinations were conducted Offline by the College as per the University of Mumbai and Government advisories.

Examination pattern for FY and SY [both autonomous] followed a 60:40 pattern in which, Continuous Evaluation (CE) [30 Marks], were conducted offline and Learners submitted the Documents, Assignments, Project books in the form of hard copy or via emails. For the remaining 10 marks one online MCQ based periodical test was conducted.

Semester End Examination (SE) [60 marks] for all the programs were conducted offline.

The examination forms, admit cards, attendance sheets, etc. were generated through the software. Software was effectively used for processing the marks obtained by the learners in the Continuous
Internal Assessment and as well as Semester End Examinations.

Results were processed and the grade cards were also generated through the ERP. This helped in minimizing human errors and the time required for declaration of results.
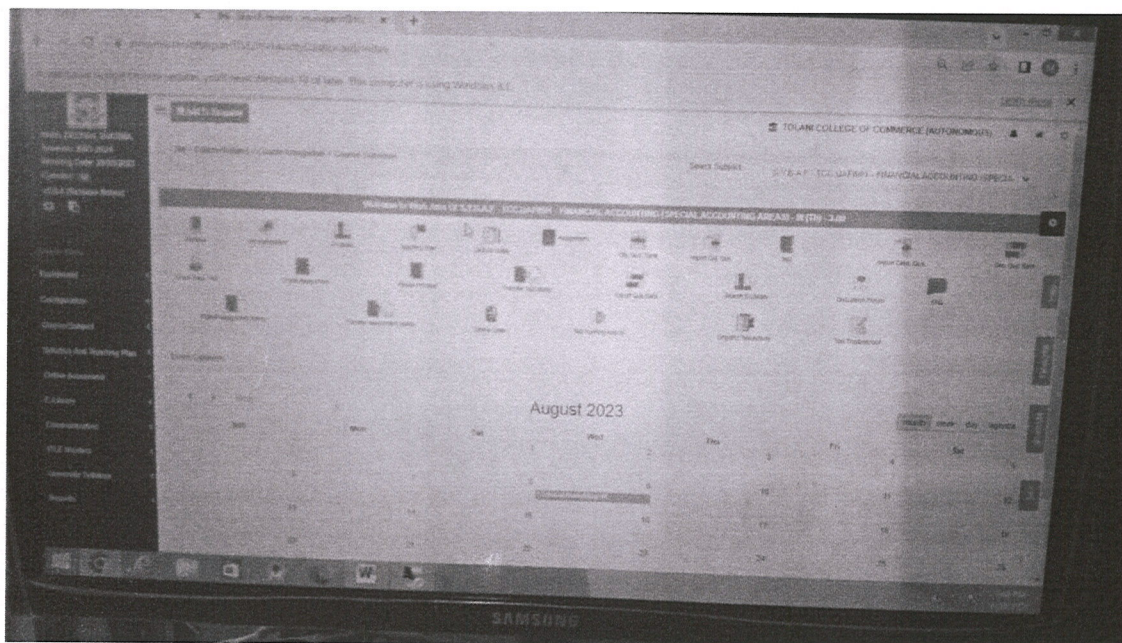

Software used for conducting the examination(periodical tests):
