Career Counseling Report - 2022-23.(February- April)

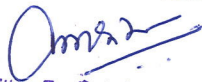

Total count of Learners (Degree College): 17

The career counselling experience of this year involved a lot of exploration with the students. Interacting with students with different needs and perspectives was a great experience. They were encouraged to understand themselves better and thereby choose the most suitable career path. A lot of learners from the degree college were happy to have received direction regarding their careers goal.

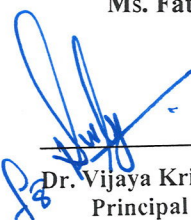

Below are a few observations:

- Some learners were very well informed and were precise with their questions. However, the majority were not sure and had a lot to explore. This was a bit difficult to achieve with the given time slot.
- General awareness about various career options after graduation seems limited among students.
- Some students knew what they wanted but were seeking guidance about how they can plan to reach their career goal.
