| Sr. | Heading | Particulars | | |
|-----|---|--|--|--|
| No. | | | | |
| 1 | Description the course : | This introductory course in Cost Accounting is designed to serve as the foundation for understanding and analyzing the costs associated with goods and services in an organization. It focuses on generating enthusiasm for the exploration and analysis of costing aspects within a company. The course aims to provide learners with the necessary skills to ascertain, manage, and analyze costs effectively. Beyond cost calculation, the emphasis is on using cost information as a valuable tool for decision-making to enhance the overall quality of organizational choices. It provides a solid grounding in cost accounting principles and their practical applications, preparing participants to contribute effectively to decision-making processes within organizations. | | |
