Report of Short Term Course A.Y.2023-2024

Research Methodology

1. Introduction:

This course aims to introduce students to the important aspects of research. The intent of the course is to make students aware of the details associated with formal research and to help students overcome common misconceptions that may be present in their minds. By going through this course, students are likely to be able to take up research activities in a more systematic and formal manner right from the beginning.

2. Objectives:

The main objectives are to:

- To give exposure to the fundamentals of research with specific reference to applied research in social sciences
- To encourage research-based learning
- To create interest in research

3. Target Audience:

Students of undergraduate programs who have not had any exposure to research methodology as a course in itself or part of the curriculum.

4. The Practice:

- i. The course is for a duration 10 days and the sessions are conducted for a duration of 3 hours a day.
- ii. There are 10 modules. Study material is provided for reference. The details of the modules are as follows:

Report of Short Term Course A.Y.2023-2024

Critical Thinking and Problem Solving

November 2023, January 2024, April 2024

Introduction:

The Short Term Course on Critical Thinking and Problem Solving plays a significant role in various competitive exams, job assessments, and decision-making processes in daily life. This short-term course is designed to equip participants with a solid foundation in quantitative techniques, problem-solving strategies, and time management skills. Whether you are preparing for competitive exams, entrance tests, or simply want to improve your numerical abilities, this course will help you develop confidence and proficiency.

Objectives

1. To understand the fundamentals of quantitative aptitude.
2. To learn effective techniques for solving numerical and logical problems quickly.
3. To improve accuracy and speed in mathematical computations.
4. To prepare participants for exams and assessments that require quantitative reasoning.

Target Audience:

Learners of Second Year and Third Year of UG Level and learners of PG Level

Course Features:

- Short Duration: Tailored to fit into a limited timeframe, making it ideal for busy schedules.
- Interactive Learning: Engaging sessions with quizzes and practice problems.
- Expert Guidance: Experienced instructors providing personalized attention.
- Practical Application: Real-world examples to make learning relevant and interesting.
