Remarks of the Counselor:

Career Counseling Report - 2023-24 (June-April):

Total count of Learners (Degree College): 48

The career counselling experience of this year involved a lot of understanding and insight of student's perspective while choosing any career. Many students looked at stability it would provide in their life, while some wanted to choose careers based on the number of years it would take to get into it. Students were thereby encouraged to choose careers based on their interest and something they are really passionate about. Overall it was a great experience interacting with students with different perspectives.

Below are a few observations:

- Most of the junior college students had opted for commerce without much thought and were confused as to what all can be done after SYJC (Commerce).
- A majority of degree college students knew about the different career options or professions they would want to get into but weren't sure about the pathway for the same.
- Students who come in the first half of the academic year have more generic questions as opposed to the second half wherein students were very confused between pathways to choose and had specific queries written.
